

National Bank of Abu Dhabi PJSC - India Branch

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017

(CURRENCY: INDIAN RUPEES IN MILLIONS)

1. Scope of Application and Capital Adequacy

Qualitative Disclosures:

National Bank of Abu Dhabi PJSC - India Branch ('the Bank') operates in India as a branch of National Bank of Abu Dhabi PJSC, Abu Dhabi a banking entity incorporated and registered in Abu Dhabi. The Bank has only one branch in India as on March 31, 2017 located at Mumbai. The Bank does not have any subsidiaries in India nor any interest in Insurance Entities. Thus, the disclosures contained herein only pertain to the Bank.

a) List of group entities considered for consolidation

Name of the entity / Country of incorporation	Whether the entity is included under accounting scope of consolidation (yes / no)	Explain the method of consolidation	Whether the entity is included under regulatory scope of consolidation (yes / no)	Explain the method of consolidation	Explain the reasons for difference in the method of consolidation	Explain the reasons if consolidated under only one of the scopes of consolidation
Not Applicable						

b) List of group entities not considered for consolidation both under the accounting and regulatory scope of consolidation

Name of the entity / country of incorporation	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	% of bank's holding in the total equity	Regulatory treatment of bank's investments in the capital instruments of the entity	Total balance sheet assets (as stated in the accounting balance sheet of the legal entity)
Not Applicable					

Quantitative Disclosures :

c) List of group entities considered for consolidation

Name of the entity / country of incorporation (as indicated in (i)a. above)	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	Total balance sheet assets (as stated in the accounting balance sheet of the legal entity)
Not Applicable			

[Handwritten signature]

National Bank of Abu Dhabi PJSC - India Branch

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017

(CURRENCY: INDIAN RUPEES IN MILLIONS)

- d) The aggregate amount of capital deficiencies in all subsidiaries which are not included in the regulatory scope of consolidation i.e. that are deducted :

Name of the subsidiaries / country of incorporation	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	% of bank's holding in the total equity	Capital deficiencies
Not Applicable				

- e) The aggregate amounts (e.g. current book value) of the bank's total interests in insurance entities, which are risk-weighted :

Name of the insurance entities / country of incorporation	Principle activity of the entity	Total balance sheet equity (as stated in the accounting balance sheet of the legal entity)	% of bank's holding in the total equity / proportion of voting power	Quantitative impact on regulatory capital of using risk weighting method versus using the full deduction method
Not Applicable				

- f) Any restrictions or impediments on transfer of funds or regulatory capital within the banking group :

There are no restrictions or impediments on transfer of funds or regulatory capital within the banking group.

2. Capital Adequacy

Qualitative Disclosures:

The CRAR of the Bank is 408.76% as computed under Basel III norms, which is higher than the minimum regulatory CRAR requirement of 9%.

The Bank's capital management approach is driven by the desire to maintain an appropriate capital base and to maintain an adequate buffer in support of its business development and to meet the regulatory capital requirements stipulated by the RBI at all times. Implications of major business decisions on the Bank's capital position are taken into account by the India Executive Committee (India EXCO) of the Bank and the NBAD Group, prior to implementation, in order to preserve the Bank's overall capital requirements.

The Bank's capital requirements are drawn up annually in conjunction with the financial budgeting exercise and approved by the NBAD Group for implementation at the beginning of each financial year. The capital requirements take into account, inter alia, the Bank's strategic objectives and business plans and regulatory capital requirements.

National Bank of Abu Dhabi PJSC - India Branch

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017
(CURRENCY: INDIAN RUPEES IN MILLIONS)

(a)	Capital requirements for credit risk :	35
	* Portfolios subject to standardised approach	35
	* Securitisation exposures	-
(c)	Capital requirements for market risk :	62
	* Standardised duration approach;	
	- Interest rate risk	19
	- Foreign exchange risk (including gold)	43
	- Equity risk	-
(d)	Capital requirements for operational risk :	51
	* Basic Indicator Approach	51
(e)	Common Equity Tier 1 (CET1), Tier 1 and Total Capital ratios :	
	* CET1 Capital ratio (%)	408.76%
	* Tier 1 Capital ratio (%)	408.76%
	* Total Capital ratio (%)	408.76%

3. General Disclosures

The India EXCO has overall responsibility for the establishment and oversight of NBAD India's risk management framework and the India EXCO is assisted by two management committees, the India Risk Management Committee ("IRMC") and India Assets and Liability Management Committee ("India ALCO").

The Bank's Risk Governance Approach has been aligned with those established at the Group.

The Bank adopts the Group's three lines of defence risk management approach.

- The first line of defence is that all employees are required to ensure the effective management of risks within the scope of their direct organizational responsibilities.
- The second line of defence comprises the Risk Control Owners, supported by their respective control functions. Risk Control Owners are responsible for ensuring that the risks within the scope of their responsibilities remain within appetite. The second line is independent of the origination, trading and sales functions to ensure that the necessary balance and perspective is brought to risk/return decisions.

National Bank of Abu Dhabi PJSC - India Branch

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017

(CURRENCY: INDIAN RUPEES IN MILLIONS)

- The third line of defence comprises the independent assurance provided by the Group Internal Audit ("IA") function which has no responsibilities for any of the activities it examines. IA provides independent assurance of the effectiveness of management's control of its own business activities (first line) and of the processes maintained by the Risk Control Functions (the second line). As a result, IA provides assurance that the overall system of control effectiveness is working as required within the Risk Management Framework.

General Disclosures for Credit Risk

Qualitative Disclosures

NBAD India follows the Group Credit Policy Manual and has also developed an India Credit Policy Manual which covers all stages of the credit life cycle, viz. origination, assessment and measurement, pricing, approval, commitment, administration, operations, monitoring, reporting, remedial management and portfolio management. It addresses all the businesses of the Bank where credit risk is presently being assumed, in any manner.

The Manual provides a set of policies to establish and maintain the following including, but not limited to:

- An appropriate credit risk environment,
- A sound credit granting process,
- An appropriate credit measurement, monitoring and reporting process, and
- Adequate controls over credit risk, in all business segments at, both, the individual credit and portfolio levels. It also seeks to establish a common quality standard for the management of credit risk.

Risk rating system

The Bank uses an internal risk rating system to assess the credit quality of borrowers and counterparties. Each counterparty is assigned a rating, including classified accounts that are either watch list or non-performing. The risk rating system has 11 grades, further segregated into 24 notches. Grades 1-7 are performing, Grade 8 is Watch-list and Grades 9 - 11 are non-performing, each with a rating description.

The Group has implemented bespoke models and scorecards using its own data and expert judgment for:

- Borrower risk rating models for Corporate, SMEs, and High Net-Worth Individuals.
- Facility risk rating models for Project Finance and Real Estate.

Model performance and usage are monitored regularly by the Group and are reported to the Group senior management and risk committees. All models are subject to periodic in-depth reviews by the Group to ensure that they remain fit-for-use and appropriate to the underlying portfolio segment and geography.

National Bank of Abu Dhabi PJSC - India Branch

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017

(CURRENCY: INDIAN RUPEES IN MILLIONS)

The output of each model and scorecard is mapped to an internal rating scale. Each grade in the rating system is linked to a Probability of Default (PD) estimated using the Group default experience supplemented by data from external sources.

Sovereign and bank exposures are governed by the ratings from external credit rating agencies.

Risk Monitoring

The Bank regularly monitors its credit risk in respect of all its portfolios at various levels. At the obligor level, the Bank has a process of periodic review of credit based on the internal rating grades. More frequent reviews are made for the weaker credits and less frequent reviews for the superior credits. The Bank conducts full reviews and renewals of all performing credits at least annually. Obligors with lower risk profile are monitored at lower frequency by business units, unless otherwise required, to evaluate the potential changes in credit worthiness and related impact on risk rating based on latest available financial and other relevant information. More frequent and focused monitoring for lower rated borrowers ensures early identification of potential impairments, if any.

The Group has clearly identified specific sectors (equity financial, real estate, etc.) that are vulnerable, and are subject to material credit risk. The Bank in India currently does not have any exposures to these vulnerable sectors.

The classification and impairment policy currently implemented by the Group classifies delinquent borrowers as Substandard, Doubtful or Loss in line with the guidelines laid down in the Central Bank of United Arab Emirates' (CBUAE) circular 28/2010. The Bank in India will comply with the Group policy as well as the RBI's Master Circular - Prudential Norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances dated 01 July 2015. Currently there are no non-performing exposures.

In assessing the collective loss allowance, the Bank uses the capital charge of 0.4% (and other specified rates) of standard assets and positive MTMs, as stipulated in the above RBI circular.

Watch-listed accounts are also monitored and reported to senior management. This category comprises accounts where either contractual principal or interest is past due or when the accounts show weakness in the borrower's financial position and creditworthiness and requires more than normal attention. Such weakness is specifically monitored to ensure that the quality of the asset does not further deteriorate. Currently there are no Watch-listed accounts.

The Bank monitors all excesses over limits. The monitoring reports are available to senior management and processes are initiated to realize and regularize such excesses, where outstanding.

The Bank monitors the existing portfolio based on country, industry and ratings. These portfolio reports are prepared periodically and tabled for review by senior management. In view of the single branch status and nascent stage of business, the Bank in India does not currently have economic sector / industry wise exposure caps / limits nor have geographic caps / limits been set. These will be considered in 2017.

National Bank of Abu Dhabi PJSC - India Branch

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017
(CURRENCY: INDIAN RUPEES IN MILLIONS)

Quantitative Disclosures

a. Credit Exposures

Particulars	31 March 2017
Fund Based	693
Non Fund Based	930

The Fund based exposures represents the inter-bank exposures. Non fund based exposures represents Guarantees and credit equivalent of Foreign exchange contracts. There are no customer exposure (non-bank) as at 31 March 2017.

b. Geographic distribution of exposures

The Bank does not have overseas operations and hence exposures are restricted to the domestic segment

c. Industry type distribution of exposures

Industry type	Fund Based	Non Fund Based	Total
Bank	625	915	1,540
QCCP	67	15	82
Other	-	-	-
Total	693	930	1,622

d. Residual contractual maturity breakdown of total assets

Buckets	31 MARCH 2017
1 day	5570
2 to 7 days	912
8 to 14 days	87
15 to 28 days	-
29 days and upto 3 months	-
Over 3 months and upto 6 months	-
Over 6 months and upto 1 year	2
Over 1 year and upto 3 years	1
Over 3 year and upto 5 years	4
Over 5 years	241
Total	6,818

e. Amount of NPA

The Bank did not had any NPA during the period and hence this disclosure is not applicable

f. Net NPAs

The Bank did not had any NPA during the period and hence this disclosure is not applicable

National Bank of Abu Dhabi PJSC - India Branch

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017

(CURRENCY: INDIAN RUPEES IN MILLIONS)

g. NPA ratios

The Bank did not had any NPA during the period and hence this disclosure is not applicable

h. Movement of NPAs (Gross)

The Bank did not had any NPA during the period and hence this disclosure is not applicable

i. Movement of provisions

The Bank did not had any NPA during the period and hence this disclosure is not applicable

j. Amount of Non-Performing Investments (NPI)

The Bank did not had any NPI during the period and hence this disclosure is not applicable

k. Amount of provisions held for NPI

The Bank did not had any NPI during the period and hence this disclosure is not applicable

l. Movement of provisions for depreciations on investments

The Bank did not had any Investment during the period and hence this disclosure is not applicable

4. Disclosures for Portfolios Subject to the Standardised Approach

Qualitative Disclosures

The Bank uses the External Credit Assessment Institutions (ECAI) approved by the RBI to calculate its capital adequacy for sovereigns, banks, and corporate counterparties. For all exposures to domestic corporates, ratings by the following ECAs are to be considered in line with 5.8 of RBI's Master Circular on Basel III Capital Regulations dated 01 July, 2015 - Brickwork Ratings India Pvt Ltd; Credit Analysis and Research Ltd; CRISIL Ltd; India Ratings and Research Ltd; ICRA Ltd; SMERA Ratings Ltd.

Claims on Indian banks and Indian branches of foreign banks will be risk weighted in line with the RBI's Master Circular on Basel III Capital Regulations dated 01 July, 2015 based on the CET1 and applicable CCB ratio levels set out.

Ratings from Fitch, Moody's and Standard & Poor's are considered for risk weights for claims on foreign sovereigns, foreign public sector entities and foreign banks as set out in the RBI Master Circular.

The use of the ratings and mapping process will be in line with the RBI Master Circular.

National Bank of Abu Dhabi PJSC - India Branch

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017

(CURRENCY: INDIAN RUPEES IN MILLIONS)

Quantitative Disclosures

Bank's outstanding (rated and unrated) pertaining to inter-bank and QCCP in the three major risk buckets as well as those that are deducted are as under:

Particulars	31 March 2017
Below 100% risk weight	1,550
100% risk weight	-
More than 100% risk weight	-
Deduction	15

* Deduction represents DTA which has deducted from CET 1 Capital

There are no customer (non-bank) outstanding as at 31 March 2017

5. Credit Risk Mitigation : Disclosures for Standardised Approaches

Qualitative Disclosures

The Bank has not accepted any collateral for credit risk mitigation purposes. The types of collateral considered by the Bank are provided below, which will be accepted based on Legal advice and approval – cash; fixed deposit receipts issued by the Branch; debt securities; marketable securities including mutual fund units, equity shares; trade and other receivables; commercial real estate; other tangible assets such as, commodities, vehicles, plant and machinery, merchandise, goods, inventory, and stock; life insurance policies with a declared surrender value of an insurance company which is regulated by an insurance sector regulator; credit insurance / guarantees; standby letters of credit etc.

Quantitative Disclosures

There were no credit risk mitigation considered in Pillar 1 computation and hence this disclosure is not applicable.

6. Securitisation Exposures : Disclosure for Standardised Approach

The Bank has not undertaken any securitisation and hence this disclosure is not applicable.

7. Market Risk in Trading Book

Qualitative Disclosures

Market risk is the risk that the Bank's income and / or value of its financial instruments will fluctuate adversely because of changes in market factors such as interest rates, foreign exchange rates, and equity, commodity and option prices.

National Bank of Abu Dhabi PJSC - India Branch

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017

(CURRENCY: INDIAN RUPEES IN MILLIONS)

Market Risk at the Group is managed as per the Group Market Risk Policy Framework, which includes specific guidelines on roles and responsibilities for management of Market Risk, its Governance Structure, Market Risk appetite statement and the limit structure. It specifies the way market risk is identified, measured, monitored, controlled and reported.

The Bank monitors market risk sensitivity (DV01), net open position and Value-at-Risk (VaR) using historical simulation based on a 99% confidence level and assumes a 1-day holding period using market data from the previous two years.

The Bank segregates all its positions in either the Trading Book or Banking Book.

Quantitative Disclosures

Particulars		31 MARCH 2017
Capital requirements for market risk :		62
*	Standardised duration approach;	
	- Interest rate risk	19
	- Foreign exchange risk (including gold)	43
	- Equity risk	-

8. Operational Risk Mitigation

Operational risk is identified as the risk of losses (direct, indirect & near misses) resulting from inadequate or failed internal processes, human behavior, systems, or from external events.

The Bank has adopted the Group Operational Risk framework consisting of policies and procedures to assess risks (i.e. to identify, assess, monitor, control, report) and to manage incidents (i.e. to notify, identify and rectify incidents). The Operational Risk framework also provides the interrelation with other risk categories. Where appropriate, risk is mitigated by way of insurance.

The primary responsibility to ensure that risks are managed and monitored resides with the businesses, as the 'first line of defence'. The businesses are supported by the risk function as the 'second line of defence' to ensure robust risk management. Further, reviews are to be conducted by Group Internal Audit as the 'third line of defence'.

Key components of the NBAD Operational Risk framework and policies include:

- Conduct of risk and control assessments (RA) and incorporation of action plans for any gaps as well as the development of a risk profile
- Monitoring of risks by regularly measuring key indicators (KI)
- Reporting and managing operational risk incidents on a timely basis including any mitigating measures

RAs and KIs have been implemented in 2016-17 in a phased manner. Incidents are recorded in the Incident Management Database (IMD), which is managed by Group Operational Risk Management (GORM).

National Bank of Abu Dhabi PJSC - India Branch

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017

(CURRENCY: INDIAN RUPEES IN MILLIONS)

9. Interest Rate Risk in the Banking Book (IRRBB)

Qualitative Disclosures

The Banking Book exposure is defined as all other exposures that are not defined as Trading Book positions. This includes both on and off-balance sheet positions. Financial instruments held under the Banking Book are considered as investment positions.

The Banking Book operations generate non traded market risk primarily through interest rate risk arising from the sensitivity of the value of financial instruments and the net interest margin to changes in interest rates. The Bank manages this risk principally through monitoring interest rate gaps and by matching the re-pricing profile of assets and liabilities.

Earning at Risk and Market Value of Equity computations are carried out and tabled at the ALCO meetings. Limits for MVE has been implemented during 2016-17 to facilitate monitoring.

Quantitative Disclosures

The impact on market value of equity for a 200 basis upward move (in ` 000's) as at 31st March 2017 is decline in value of Rs. 0.2 millions.

EaR is the loss of income under different interest rate scenarios over a time horizon of one year i.e. loss in income due to change in interest rates at the time of maturity / re-pricing of assets and liabilities within one year. The impact is detailed below:

EaR for 1 year horizon under different Interest Rate scenarios:	Amount in Rs. Millions
-300bps	(21)
-200bps	(14)
-100bps	(7)
+100bps	7
+200bps	14
+300bps	21

National Bank of Abu Dhabi PJSC - India Branch

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017

(CURRENCY: INDIAN RUPEES IN MILLIONS)

10. General Disclosure for Exposures Related to Counterparty Credit Risk

Qualitative Disclosures

The Bank follows the Current Exposure Method (CEM) of computation of counter-party credit exposure set out in RBI's Master Circular on Basel III Capital Regulations dated 01 July 2015. The CEM requires the aggregation of the potential future exposure using the product/tenor wise credit conversion factors and positive MTMs to arrive at the exposure at default. Customer exposure limits are set using the counter-party credit risk process and approval authorities.

It is the Bank's preference to execute Credit Support Annexes (CSAs) and there are detailed policies regarding the requirement of CSAs and management of collateral.

The Group has established a process for managing CVA. The Group calculates CVA using the add-on methodology at a transaction level and at the counter-party level. The CVA is effected at the NBAD Group level. In case of larger value transactions, the CVA is accounted at the transaction level. The NBAD Group is working on integration of CVA into the trading system by June 2017, which will automatically calculate CVA numbers on a daily basis.

The impact of wrong-way risk is considered while approving counter-party limits/transactions.

Quantitative Disclosures

Particulars	31 March 2017
Gross positive fair value of contracts	3
Netting benefits	-
Netted current credit exposure	3
Collateral held	-
Net derivatives credit exposure	3
